Interior Match – design furniture and floors in harmony

The EGGER Interior Match shows you what is possible when combining furniture and flooring. The decor selection combines the Decorative Collection 2024+ for furniture and interior design with the PRO Flooring Collection 2021+.

In Decor Match, you can choose wood or material optics that match the decor or colour for flooring, doors, kitchen worktops or entire pieces of furniture. This is how you bring harmony to your designs.

Interior Match / Decor Match - H1344 ST32 (Egger Decorative Collection) coordinated with the PRO Flooring decor EPL184.
DM - Decor Match = Flooring, as well as products from furniture and interior design in the same decor with different textures
CM - Colour Match = Flooring as well as furniture and interior design products whose decors are colour-coordinated

Worktop Match – create harmonious furniture

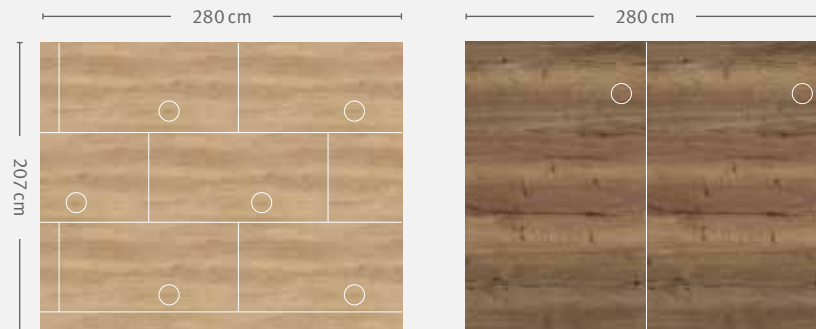

With our established decor- and material match we have several decors which are available as decorative faced board and worktop - this is getting increasingly

important for creating harmonious combinations. Those decors are marked with „Worktop Match“.

Worktop Match - H1180 ST37 on worktop combined to the matching decorative boards used for cupboard and table.

XL repeat

Common repeat on the printed reproduction

XL repeat on the printed reproduction

To further highlight the natural finish of wood and material reproductions, some of our decors are developed with a so-called „XL repeat“. Now, details are repeated only twice on a board size 2,800 × 2,070 mm. This means the appearance of our decors is even more authentic, with natural features such as cracks or large knots.

- » To appreciate the grain repeat select that decor via the App.
- » Decors with XL repeat are marked accordingly
- » 2 worktop decors H011 and H197 have a repeat-less decor image on a worktop format, so that no repetitions can be seen on the entire worktop and thus appear even more authentic.
